

GENERAL NOTES

Please note that the leader may change the walk because of adverse weather or for other reasons. Leaders will try to set a pace within the capabilities of the entire party. Members must co-operate and stay within a reasonable distance so that the party does not get split up. This is important especially for large parties and/or poor visibility. On high level walks it is highly desirable that everyone should carry a map and compass and should know (or learn) how to use these.

Members should NOT leave a walk without informing the leader. Members should not walk ahead of the leader and the rest of the party, and certainly should not be out of sight or earshot of the rest of the party.

Neither the Group nor the Leaders of Walks in the programme can accept liability for any accident which may occur on any Group walk. ~~Personal Accident Insurance for ramblers and mountaineers~~ is available from the British Mountaineering Council Services Ltd., Crawford House, Precinct Centre, Booth Street East, Manchester M13 9RZ.

Leaders' phone numbers are given so that members can check on details such as public transport arrangements, and less experienced members can find out more about the exact level of difficulty of a particular walk.

Prospective new members are welcome to come along on a few walks as visitors.

NEIGHBOURING GROUP PROGRAMMES - Members are welcome to participate in other Groups' walks. All requests for Glasgow, Eastwood, Bearsden and Milngavie programmes to Programme Secretary, Mrs M Menzies, 83 Lanfine Road, Paisley, PA1 3NJ. S.A.E.

We regret that DOGS ARE NOT ALLOWED.

Suggestions for walks, and volunteers as leaders, are welcome at any time and not only when a new programme is being prepared.

CLYDESIDE 2000 SCOTTISH WALKS

This service resumes on 3 April 1994 and provides the facility for doing the West Highland Way on successive Sundays, as well weekends on Mull and other individual walks.

Details on a leaflet from Clydeside 2000 Shop in Causeyside Street Paisley or phone 041 889 3191.
